

Ultrabot Learning Management System

Ultrabot 6.0 is a cost effective, easy to implement, scalable, robust and SCORM 2004 compliant Learning Management System (LMS) that is designed to help clients enjoy the benefits of having an LMS without enduring the prohibitive implementation costs and overheads that come with most LMS projects.

The system is available as installed base or you can subscribe for our on demand managed services.

Features

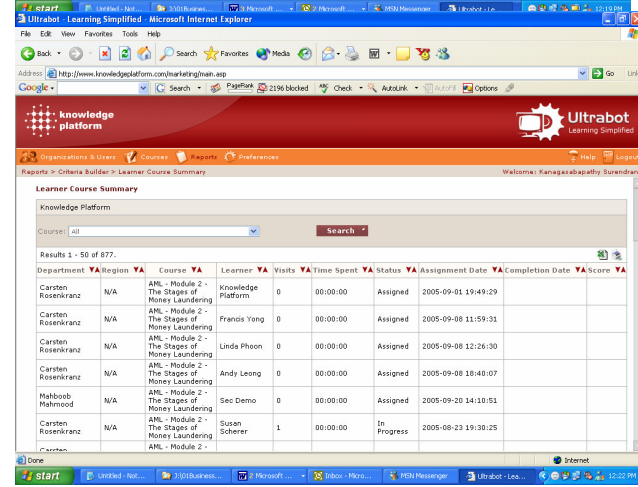

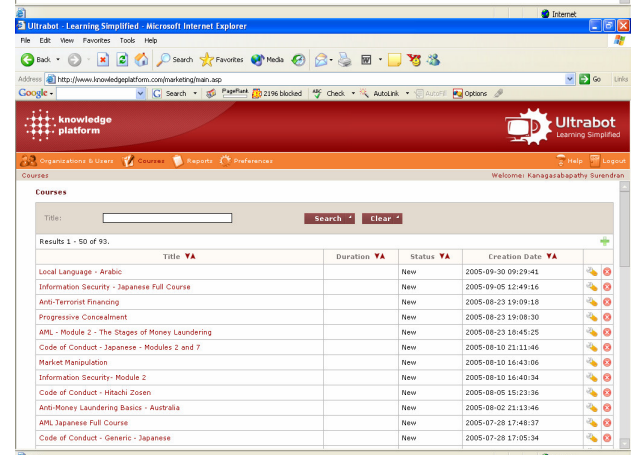

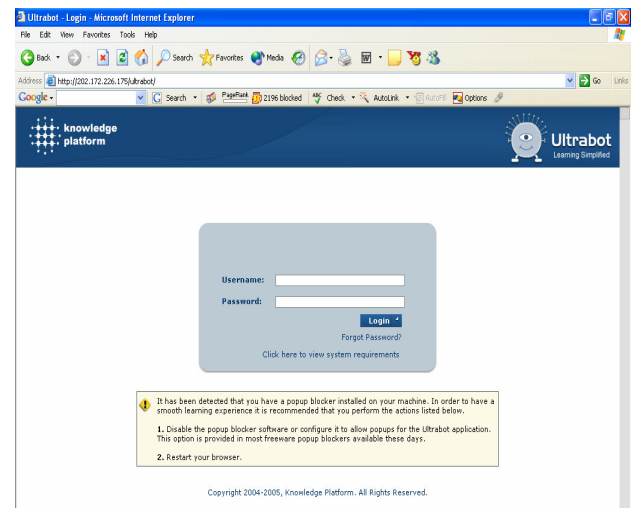

- Organization Management
- User Management
- Course Management
- Comprehensive Reporting
- Online Surveys
- Assessments
- Bulletin Boards
- Group Learning
- Daily Learning
- Adaptive Learning
- Data Archival
- Personalization
- Notification management

System Requirements

- OS: Windows 2000/2003
- Database: SQL Server 2005
- Web Server: IIS 5.0 or above
- Reporting: Crystal Reports Developer Version
- Client: IE5.0 or above
With Flash 6 or above

Ultrabot Architecture

- 100% Asp Implementation
- Shared object cache for components (e.g. questions, user sessions)
- Server-side session data for secure parameter management
- Support for Microsoft Database
- Business logic separated from language/screen text, thus allowing Ultrabot to deliver the user interface in multiple languages to different users simultaneously.
- XML based.
